

## Basic Pharmacology (5 videos; 1 hour 26 minutes)

- I. General Topics (1 hour 26 minutes)
  - Enzymes (14 minutes)
  - Enzyme Inhibitors (8 minutes)
  - Dose-Response (21 minutes)
  - Drug Elimination (17 minutes)
  - Pharmacokinetics (27 minutes)

## Behavioral Science (6 videos; 1 hour 26 minutes)

- I. General Topics (1 hour 26 minutes)
  - Ethics Principles (11 minutes)
  - Informed Consent (17 minutes)
  - Confidentiality (11 minutes)
  - Decision-Making Capacity (8 minutes)
  - Public Health (10 minutes)
  - Quality and Safety (30 minutes)

## Biochemistry (28 videos; 9 hours 4 minutes)

- I. Molecular Biochemistry (54 minutes)
  - DNA Structure (13 minutes)
  - Purine Metabolism (19 minutes)
  - Pyrimidine Metabolism (22 minutes)
- II. Metabolism (4 hours 11 minutes)
  - Glucose (8 minutes)
  - Glycolysis (31 minutes)
  - Gluconeogenesis (17 minutes)
  - Glycogen (21 minutes)
  - HMP Shunt (14 minutes)
  - Fructose and Galactose (12 minutes)
  - Pyruvate Dehydrogenase (18 minutes)
  - TCA Cycle (14 minutes)
  - Electron Transport Chain (21 minutes)
  - Fatty Acids (27 minutes)
  - Ketone Bodies (8 minutes)
  - Ethanol Metabolism (19 minutes)
  - Exercise and Starvation (22 minutes)
  - Inborn Errors of Metabolism (21 minutes)
- III. Amino Acids (1 hour 20 minutes)
  - Amino Acids (18 minutes)
  - Phenylalanine and Tyrosine (25 minutes)
  - Other Amino Acids (19 minutes)
  - Ammonia (18 minutes)
- IV. Vitamins (1 hour 15 minutes)
  - B Vitamins (23 minutes)
  - B12 and Folate (20 minutes)
  - Other Vitamins (33 minutes)
- V. Lipids (53 minutes)
  - Lipid Metabolism (20 minutes)
  - Hyperlipidemia (10 minutes)
  - Lipid Drugs (23 minutes)
- VI. Other Topics (31 minutes)
  - Lysosomal Storage Diseases (31 minutes)

## Biostats/Epi (11 videos; 2 hours 52 minutes)

- I. Biostatistics (55 minutes)
  - Basic Statistics (18 minutes)
  - Hypothesis Testing (13 minutes)
  - Tests of Significance (17 minutes)
  - Correlations (7 minutes)
- II. Epidemiology (1 hour 57 minutes)
  - Study Designs (17 minutes)
  - Risk Quantification (18 minutes)
  - Sensitivity and Specificity (22 minutes)
  - Positive and Negative Predictive Value (12 minutes)
  - Diagnostic Tests (15 minutes)
  - Bias (19 minutes)
  - Clinical Trials (13 minutes)

□

## Cardiology (43 videos; 12 hours 56 minutes)

- I. Introduction to Cardiac Medicine (2 hours 16 minutes)
  - Cardiac Anatomy (9 minutes)
  - Cardiac Physiology (19 minutes)
  - CV Response to Exercise (9 minutes)
  - Blood Flow Mechanics (29 minutes)
  - Regulation of Blood Pressure (22 minutes)
  - PV Loops (16 minutes)
  - Wiggers' Diagram (9 minutes)
  - Venous Pressure Tracings (8 minutes)
  - Starling Curve (16 minutes)
- II. Cardiac Ischemia (1 hour 27 minutes)
  - Atherosclerosis (16 minutes)
  - Cardiac Ischemia (30 minutes)
  - STEMI (12 minutes)
  - Unstable Angina/NSTEMI (8 minutes)
  - Stable Angina (21 minutes)
- III. EKGs (41 minutes)
  - EKG Basics (23 minutes)
  - High Yield EKGs (17 minutes)
- IV. Arrhythmias (2 hours 10 minutes)
  - Cardiac Action Potentials (16 minutes)
  - AV and Bundle Branch Blocks (29 minutes)
  - Atrial Fibrillation and Flutter (22 minutes)
  - AVNRT (9 minutes)
  - WPW (9 minutes)
  - Antiarrhythmic Drugs (45 minutes)
- V. Cardiac Auscultation (40 minutes)
  - Heart Murmurs (22 minutes)
  - Heart Sounds (17 minutes)
- VI. Heart Failure (1 hour 28 minutes)
  - Heart Failure Basics (22 minutes)
  - Systolic and Diastolic Heart Failure (18 minutes)
  - Restrictive Cardiomyopathy (12 minutes)
  - Acute Heart Failure (19 minutes)
  - Chronic Heart Failure (17 minutes)
- VII. The Developing Heart (1 hour 17 minutes)
  - Cardiac Embryology (15 minutes)
  - Shunts (18 minutes)
  - Cyanotic Congenital Heart Disease (22 minutes)
  - Coarctation of the Aorta (11 minutes)
- VIII. Hypertension (1 hour 2 minutes)
  - Hypertension (12 minutes)

- Secondary Hypertension (18 minutes)
  - Hypertension Drugs (32 minutes)
- IX. Other Cardiovascular Topics
  - Valve Disease (26 minutes)
  - Shock (21 minutes)
  - Pericardial Disease (24 minutes)
  - Aortic Dissection (16 minutes)
  - Cardiac Tumors (6 minutes)
  - Hypertrophic Cardiomyopathy (16 minutes)
  - Endocarditis (18 minutes)

## Cell Biology (14 videos; 3 hours 20 minutes)

- I. Molecular Biology (1 hour 32 minutes)
  - DNA Replication (17 minutes)
  - DNA Mutations (15 minutes)
  - DNA Repair (17 minutes)
  - Transcription (23 minutes)
  - Translation (20 minutes)
- II. Laboratory Techniques (33 minutes)
  - PCR (5 minutes)
  - Blotting (8 minutes)
  - Flow Cytometry (6 minutes)
  - ELISA (9 minutes)
  - Microarrays and FISH (5 minutes)
- III. Cellular Biology (1 hour 15 minutes)
  - Cell Cycle (14 minutes)
  - Cell Structure (21 minutes)
  - Cytoskeleton (15 minutes)
  - Connective Tissue (25 minutes)

## Dermatology (11 videos; 2 hours 31 minutes)

- I. General Topics (2 hours 31 minutes)
  - Skin (14 minutes)
  - Epithelial Cells (13 minutes)
  - Skin Disorders I (20 minutes)
  - Skin Disorders II (10 minutes)
  - Pigment Disorders (7 minutes)
  - Vascular Lesions (11 minutes)
  - Skin Infections (13 minutes)
  - Blistering Disorders (10 minutes)
  - Hypersensitivity Disorders (13 minutes)
  - Skin Cancer (18 minutes)
  - Neurocutaneous Disorders (21 minutes)

## Endocrinology (18 videos; 6 hours 27 minutes)

- I. Thyroid (1 hour 15 minutes)
  - Thyroid Gland (28 minutes)
  - Thyroid Disorders (34 minutes)
  - Thyroid Cancer (13 minutes)
- II. Adrenals (1 hour 10 minutes)
  - Adrenal Glands (22 minutes)
  - Congenital Adrenal Hyperplasia (15 minutes)
  - Adrenal Disorders (33 minutes)
- III. Pancreas (1 hour 27 minutes)
  - Endocrine Pancreas (23 minutes)
  - Diabetes (33 minutes)
  - Insulin (9 minutes)
  - Treatment of Diabetes (22 minutes)
- IV. Reproductive (1 hour 16 minutes)
  - Reproductive Hormones (12 minutes)
  - Male Reproductive Hormones (28 minutes)
  - Female Reproductive Hormones (13 minutes)
  - Menstrual Cycle (23 minutes)
- V. Other Topics (1 hour 19 minutes)
  - Pituitary Gland (27 minutes)
  - Parathyroid Glands (28 minutes)
  - MEN Syndromes (8 minutes)
  - Signaling Pathways (16 minutes)

## Gastroenterology (28 videos; 8 hours 49 minutes)

- I. Anatomy (1 hour 60 minutes)
  - Gastrointestinal Embryology (28 minutes)
  - Gastrointestinal Anatomy (11 minutes)
  - Gastrointestinal Blood Supply (18 minutes)
  - Gastrointestinal Tract (19 minutes)
  - Liver, Gallbladder, and Pancreas (12 minutes)
  - Salivary Glands (14 minutes)
  - Hernias (19 minutes)
- II. GI Physiology (1 hour 37 minutes)
  - Bile (17 minutes)
  - Bilirubin (29 minutes)
  - Gastrointestinal Secretions (12 minutes)
  - Gastrointestinal Hormones (24 minutes)
  - Exocrine Pancreas (15 minutes)
- III. Clinical Gastroenterology (5 hours 12 minutes)
  - Esophageal Disorders (23 minutes)
  - Liver Disease (22 minutes)
  - Cirrhosis (23 minutes)
  - Liver Tumors (10 minutes)
  - Wilson's Disease and Hemochromatosis (15 minutes)
  - Gallstones (20 minutes)
  - Biliary Disorders (14 minutes)
  - Gastric Disorders (31 minutes)
  - Malabsorption (28 minutes)
  - Acute Pancreatitis (21 minutes)
  - Chronic Pancreatitis & Pancreatic Cancer (11 minutes)
  - Intestinal Disorders (23 minutes)
  - Inflammatory Bowel Disease (20 minutes)
  - Colon Cancer (24 minutes)
  - Carcinoid Tumors (7 minutes)
  - Gastrointestinal Pharmacology (22 minutes)

## Genetics (12 videos; 2 hours 26 minutes)

- I. Genetic Concepts (1 hour 28 minutes)
  - Genetic Principles (24 minutes)
  - Gene Mapping (12 minutes)
  - Meiosis (16 minutes)
  - Hardy-Weinberg Law (12 minutes)
  - Pedigrees (18 minutes)
  - Imprinting (6 minutes)
- II. Genetic Disorders (58 minutes)
  - Down Syndrome (14 minutes)
  - Trisomies (7 minutes)
  - Muscular Dystrophy (9 minutes)
  - Trinucleotide Repeat Disorders (10 minutes)
  - Deletion Syndromes (5 minutes)
  - Turner and Klinefelter Syndromes (13 minutes)

## Hematology (29 videos; 8 hours 14 minutes)

- I. Hemostasis (2 hours 21 minutes)
  - Coagulation (29 minutes)
  - Platelet Activation (13 minutes)
  - Hypercoagulable States (19 minutes)
  - Coagulopathies (14 minutes)
  - Platelet Disorders (24 minutes)
  - Antiplatelet Drugs (12 minutes)
  - Anticoagulants (29 minutes)
- II. Red Blood Cells (2 hours 46 minutes)
  - Hemolysis Basics (19 minutes)
  - Extrinsic Hemolysis (16 minutes)
  - Intrinsic Hemolysis (22 minutes)
  - Microcytic Anemias (33 minutes)
  - Thalassemias (21 minutes)
  - Sickle Cell Anemia (23 minutes)
  - Other Anemias (16 minutes)
  - Blood Groups (17 minutes)
- III. White Blood Cells (1 hour 50 minutes)
  - Acute Leukemia (18 minutes)
  - Chronic Leukemia (15 minutes)
  - Hodgkin Lymphoma (9 minutes)
  - Non-Hodgkin Lymphoma (22 minutes)
  - Plasma Cell Disorders (14 minutes)
  - Amyloidosis (15 minutes)
  - Myeloproliferative Disorders (18 minutes)
- IV. Cancer Drugs (1 hour 3 minutes)
  - Antimetabolites (17 minutes)
  - Alkylating Agents (10 minutes)
  - Antitumor Antibiotics (7 minutes)
  - Microtubule Inhibitors (7 minutes)
  - DNA Drugs (4 minutes)
  - Other Cancer Drugs (18 minutes)
- V. Other Topics (14 minutes)
  - Porphyrias (14 minutes)

## Immunology (15 videos; 5 hours 17 minutes)

- I. Basic Immunology (2 hours 12 minutes)
  - Innate Immunity (36 minutes)
  - T-cells (30 minutes)
  - B-cells (31 minutes)
  - The Complement System (21 minutes)
  - Lymph Nodes and Spleen (16 minutes)
- II. Clinical Immunology (1 hour 14 minutes)
  - Hypersensitivity (21 minutes)
  - Transplants (16 minutes)
  - Immune Deficiency Syndromes (36 minutes)
- III. Pharmacology (35 minutes)
  - Glucocorticoids and NSAIDs (15 minutes)
  - Immunosuppressive Drugs (20 minutes)
- IV. Autoimmune Disorders (1 hour 17 minutes)
  - Systemic Lupus Erythematosus (15 minutes)
  - Rheumatoid Arthritis (17 minutes)
  - Scleroderma (10 minutes)
  - Sjogren's Syndrome (10 minutes)
  - Vasculitis (25 minutes)

## Infectious Disease (35 videos; 11 hours 33 minutes)

- I. Basics of Microbiology (2 hours 2 minutes)
  - Bacteria (22 minutes)
  - Shapes and Stains (12 minutes)
  - Bacterial Culture (15 minutes)
  - Special Growth Requirements (10 minutes)
  - Virulence (29 minutes)
  - Growth and Genetics (16 minutes)
  - Bacterial Identification (17 minutes)
- II. Bacteria (2 hours 45 minutes)
  - Staphylococci (18 minutes)
  - Streptococci (21 minutes)
  - Other Gram Positives (25 minutes)
  - Gram Negative Rods (30 minutes)
  - Other Gram Negatives (27 minutes)
  - Spirochetes (15 minutes)
  - Zoonotic Infections (16 minutes)
  - Mycobacteria (11 minutes)
- III. Antibiotics (1 hour 31 minutes)
  - Penicillins (23 minutes)
  - Beta Lactams (17 minutes)
  - Sulfonamides (14 minutes)
  - Protein Synthesis Inhibitors (21 minutes)
  - Other Antibiotics (16 minutes)
- IV. Fungi (1 hour 4 minutes)
  - Fungal Pneumonias (16 minutes)
  - Fungal Skin Infections (10 minutes)
  - Opportunistic Fungal Infections (23 minutes)
  - Antifungal Drugs (14 minutes)
- V. Parasites and Helminths (1 hour 11 minutes)
  - Malaria (14 minutes)
  - Protozoa (29 minutes)
  - Helminths (29 minutes)
- VI. Viruses (2 hours 60 minutes)
  - Virus Structures (18 minutes)
  - DNA Viruses (18 minutes)
  - Herpes Viruses (24 minutes)
  - RNA Viruses (43 minutes)
  - Viral Hepatitis (26 minutes)
  - HIV (19 minutes)
  - HIV Drugs (16 minutes)
  - Antiviral Drugs (15 minutes)

## Musculoskeletal (23 videos; 5 hours 38 minutes)

- I. Anatomy and Orthopedics (2 hours 3 minutes)
  - Knee (18 minutes)
  - Shoulder and Elbow (14 minutes)
  - Brachial Plexus (17 minutes)
  - Wrist (12 minutes)
  - Hand (17 minutes)
  - Lumbosacral Plexus (19 minutes)
  - Lumbar Radiculopathy (15 minutes)
  - Hip (11 minutes)
- II. Cell Biology (1 hour 6 minutes)
  - Skeletal Muscle (20 minutes)
  - Cardiac Muscle (9 minutes)
  - Smooth Muscle (15 minutes)
  - Bone (21 minutes)
- III. Pathology (2 hours 29 minutes)
  - Bone Disorders (19 minutes)
  - Osteoporosis (13 minutes)
  - Osteoporosis Drugs (9 minutes)
  - Bone Tumors (24 minutes)
  - Osteoarthritis (15 minutes)
  - Gout (13 minutes)
  - Gout Drugs (9 minutes)
  - CPPD (7 minutes)
  - Seronegative Spondyloarthritis (15 minutes)
  - Muscle Disorders (12 minutes)
  - Neuromuscular Disorders (12 minutes)

## Neurology (44 videos; 10 hours 38 minutes)

- I. Introduction to Neurology (51 minutes)
  - Cells of the Nervous System (14 minutes) 291
  - Nerve Damage (11 minutes) 293
  - Blood Brain Barrier (4 minutes) 290
  - Neurotransmitters (10 minutes) 294
  - Dermatomes and Reflexes (12 minutes) 292
- II. Nervous System Structures (2 hours 53 minutes)
  - Cerebral Cortex (12 minutes) 299
  - Spinal Cord (14 minutes) 301
  - Spinal Cord Syndromes (19 minutes) 302
  - Brainstem (26 minutes) 297
  - Cranial Nerves (18 minutes) 300
  - Auditory System (10 minutes) 295
  - Vestibular System (13 minutes) 305
  - Thalamus, Hypothalamus, Limbic System (17 minutes) 303
  - Cerebellum (19 minutes) 298
  - Basal Ganglia (10 minutes) 296
  - Ventricles and Sinuses (14 minutes) 304
- III. Neurovascular Disorders (1 hour 4 minutes)
  - Cerebral and Lacunar Strokes (19 minutes) 306
  - Vertebrobasilar Stroke Syndromes (10 minutes) 310
  - CNS Aneurysms (8 minutes) 307
  - Intracranial Bleeding (20 minutes) 308
  - Management of TIA/Stroke (7 minutes) 309
- IV. Autonomic Nervous System (1 hour 10 minutes)
  - Autonomic Nervous System (27 minutes) 288-289
  - ANS Drugs: Norepinephrine (24 minutes) 287
  - ANS Drugs: Acetylcholine (20 minutes) 286
- V. The Eye (1 hour 39 minutes)
  - The Pupil (13 minutes) 325
  - The Lens (13 minutes) 324
  - The Retina (17 minutes) 326
  - Eye Movements (8 minutes) 320
  - Visual Fields (9 minutes) 327
  - Gaze Palsies (12 minutes) 321
  - Structural Eye Disorders (14 minutes) 323
  - Glaucoma (12 minutes) 322

- VI. Anesthesia (37 minutes)
  - General Anesthesia (19 minutes) [283](#)
  - Local Anesthesia (8 minutes) [284](#)
  - Neuromuscular Blockers (9 minutes) [285](#)
- VII. Other Neurology Topics (2 hours 24 minutes)
  - Meningitis (19 minutes) [316](#)
  - Seizures (22 minutes) [319](#)
  - Neuroembryology (17 minutes) [317](#)
  - Delirium and Dementia (22 minutes) [312](#)
  - Demyelinating Disease (13 minutes) [313](#)
  - Headaches (10 minutes) [314](#)
  - Brain Tumors (17 minutes) [311](#)
  - Parkinson's, Huntington's, and Movement Disorders (20 minutes) [318](#)
  - HIV CNS Infections (4 minutes) [315](#)

## Pathology (11 videos; 3 hours 2 minutes)

- I. General Topics (3 hours 2 minutes)
  - Cellular Adaptations (18 minutes)
  - Cell Injury (11 minutes)
  - Free Radicals (18 minutes)
  - Apoptosis (16 minutes)
  - Necrosis (12 minutes)
  - Inflammation Principles (25 minutes)
  - Acute and Chronic Inflammation (17 minutes)
  - Granulomatous Inflammation (9 minutes)
  - Wound Healing and Scar (24 minutes)
  - Pathologic Calcification (8 minutes)
  - Neoplasia (25 minutes)

## Pulmonary (22 videos; 6 hours 13 minutes)

- I. Introduction to Pulmonary Medicine (2 hours 51 minutes)
  - Pulmonary Embryology (19 minutes)
  - Pulmonary Anatomy (18 minutes)
  - Pulmonary Physiology (23 minutes)
  - Hemoglobin (17 minutes)
  - Pulmonary Circulation (24 minutes)
  - Hypoxia (14 minutes)
  - Ventilation and Perfusion (26 minutes)
  - Carbon Dioxide (21 minutes)
  - Pulmonary Physical Exam (10 minutes)
- II. Obstructive and Restrictive Diseases (1 hour 14 minutes)
  - Pulmonary Function Tests (18 minutes)
  - Obstructive Lung Disease (25 minutes)
  - Restrictive Lung Disease (15 minutes)
  - Treatment of COPD and Asthma (16 minutes)
- III. Other Pulmonary Topics (2 hours 8 minutes)
  - Pneumonia (26 minutes)
  - Pleural Disease (13 minutes)
  - Lung Cancer (13 minutes)
  - Sleep Apnea (7 minutes)
  - Cystic Fibrosis (13 minutes)
  - Tuberculosis (27 minutes)
  - Sarcoidosis (8 minutes)
  - Pulmonary Embolism (14 minutes)
  - Chest X-rays (7 minutes)

## Psychiatry (22 videos; 4 hours 44 minutes)

- I. Psychology (23 minutes)
  - Conditioning and Transference (12 minutes)
  - Ego Defenses (12 minutes)
- II. Pathology
  - Child Abuse and Neglect (9 minutes)
  - Childhood Disorders (13 minutes)
  - ADHD and Autism (13 minutes)
  - Cognitive Disorders (12 minutes)
  - Psychosis (6 minutes)
  - Psychotic Disorders (13 minutes)
  - Dissociative Disorders (8 minutes)
  - Somatic and Factitious Disorders (9 minutes)
  - Personality Disorders (14 minutes)
  - Mood Disorders (21 minutes)
  - Anxiety Disorders (15 minutes)
  - Eating Disorders (11 minutes)
  - Sleep Disorders (15 minutes)
- III. Substance Use Disorders (51 minutes)
  - Alcohol and CNS Depressants (17 minutes)
  - Opioids (12 minutes)
  - Stimulants (13 minutes)
  - Other Drugs (9 minutes)
- IV. Pharmacology (50 minutes)
  - Antidepressants (20 minutes)
  - Lithium (9 minutes)
  - Antipsychotics (22 minutes)
  -

## Renal (28 videos; 8 hours 11 minutes)

- I. Introduction to Renal Medicine (2 hours 11 minutes)
  - Renal Embryology (15 minutes)
  - Renal Anatomy (5 minutes)
  - Renal Physiology I (26 minutes)
  - Renal Physiology II (31 minutes)
  - Nephron Physiology (38 minutes)
  - Renal Endocrine Function (16 minutes)
- II. Acid-Base (1 hour 54 minutes)
  - Acid Excretion (9 minutes)
  - Acid-Base Principles (25 minutes)
  - Respiratory Disorders (7 minutes)
  - Metabolic Alkalosis (12 minutes)
  - Renal Tubular Acidosis (14 minutes)
  - Metabolic Acidosis (27 minutes)
  - Acid Base Problems (20 minutes)
- III. Electrolytes (1 hour 22 minutes)
  - Electrolyte Disorders (23 minutes)
  - Sodium and Water Balance (23 minutes)
  - Sodium Disorders (36 minutes)
- IV. Diseases of the Nephron (1 hour 37 minutes)
  - Glomerulonephritis Principles (15 minutes)
  - Nephritic Syndrome (21 minutes)
  - Nephrotic Syndrome (18 minutes)
  - MPGN (7 minutes)
  - Tubulointerstitial Disease (14 minutes)
  - Renal Failure (21 minutes)
- V. Other Renal Topics (1 hour 8 minutes)
  - Urinary Tract Infections (8 minutes)
  - Cystic Kidney Disease (7 minutes)
  - Diuretics (22 minutes)
  - Kidney Stones (11 minutes)
  - Renal and Bladder Tumors (12 minutes)
  - Rhabdomyolysis (7 minutes)

## Reproductive (37 videos; 7 hours 15 minutes)

- I. Embryology (1 hour 39 minutes)
  - Embryonic Genes (12 minutes)
  - Embryogenesis (8 minutes)
  - Germ Layers (8 minutes)
  - Errors in Morphogenesis (5 minutes)
  - Teratogens I (16 minutes)
  - Teratogens II (12 minutes)
  - Pharyngeal Arches (14 minutes)
  - Cleft Lip and Palate (3 minutes)
  - Pharyngeal Pouches and Clefts (6 minutes)
  - Genital Embryology (16 minutes)
- II. Pregnancy (1 hour 53 minutes)
  - Spermatogenesis and Oogenesis (12 minutes)
  - Placenta (13 minutes)
  - Twins (6 minutes)
  - Pregnancy (14 minutes)
  - Maternal-Fetal Disorders (17 minutes)
  - Hypertension in Pregnancy (11 minutes)
  - Placental Complications (14 minutes)
  - Gestational Tumors (12 minutes)
  - TORCH Infections (14 minutes)
- III. Vagina, Cervix, Uterus (45 minutes)
  - Vaginal Cancer (5 minutes)
  - Cervical Cancer (9 minutes)
  - Endometrial Disorders (10 minutes)
  - Endometriosis (10 minutes)
  - Endometrial Cancer (10 minutes)
- IV. Ovary (35 minutes)
  - Ovarian Cysts (6 minutes)
  - Ovarian Epithelial Tumors (12 minutes)
  - Ovarian Stromal Tumors (6 minutes)
  - Ovarian Germ Cell Tumors (11 minutes)
- V. Breast (44 minutes)
  - Breast Tissue (12 minutes)
  - Breast Disorders (15 minutes)
  - Breast Carcinoma (17 minutes)
- VI. Male Disorders (1 hour 3 minutes)
  - Penile Disorders (18 minutes)
  - Scrotal Disorders (14 minutes)
  - Testicular Cancer (14 minutes)
  - Prostate (16 minutes)
- VII. Other Topics (36 minutes)
  - Disorders of Sexual Development (24 minutes)
  - Hypogonadism (12 minutes)
